

Mt. Carmel parking lot dedication

Special to Pelahatchie News

The Mt. Carmel Missionary Baptist Church prayed and dedicated the church's new parking lot "back to God."

The lot started from grass, and now the church has an asphalt finished parking lot.

The church recognizes, "we can do nothing without our Lord and Savior, Jesus Christ. Dedication our parking lot and thanking so many upstanding men and women for their service and hard work in making sure it came to pass was a small act of love we could do."

"It has truly been a long time in the making, and we have waited in anticipation for it to be completed. As Psalms 27:14 states, 'Wait on the Lord, be of good courage, he shall strengthen thine heart, wait I say on the Lord.' It is truly an inspiration to be a part of a beautiful family such as Mt. Carmel Missionary Baptist Church."

The church asks that if anyone would like to join the church, please come by anytime. Service begins at 10:15 a.m. every Sunday.

Special to Pelahatchie News

On February 12, East Rankin Academy (ERA) science students competed in the Mississippi Regional Science Bowl hosted by the Mississippi University for Women, a tournament-style academic competition that challenges and recognizes high school students' knowledge of sciences and mathematics. Competition questions are selected randomly from disciplines such as astronomy, mathematics and physics.

ERA competed against 13 other high schools: Tupelo; Ocean Springs; Mississippi School for the Math and Scienc-

es (MSMS) Team II; Corinth; Oxford; and Madison Central.

The ERA science team placed second, and a team from MSMS placed first.

Since the pandemic, the competition has been run in a virtual format, where, instead of competing in head-to-head matches, each team competes against all other teams, with a team's total score determining whether or not they advance in the competition.

The winning team represents Mississippi at the National Science Bowl competition in Washington D.C. in June. 2022 was the second year in a row that the competition has used this format.
